

Service Engineer assessment online

The quick pre-selection: knowledge test, situational questionnaire and two video answers – evaluated by a former service engineer. You receive an aptitude profile with interview questions on the weak points.

DURATION

approx. 60 min
for the candidate

LOCATION

PRICE

CHF 190.– per
candidate

What it's about

Bad hires in service cost months and, in the worst case, customers. Service managers interview rarely and often by gut feeling. The assessment gives you a second, experienced view – with a grid that is the same for all candidates.

Who it's for

Heads of service, CEOs and HR hiring a service engineer or field service engineer.

Your benefit

- Technical skills tested in practice, not just described
- Customer-facing behaviour and handling pressure made visible
- Uniform grid – fair, comparable assessment
- Recommendation plus notes for onboarding

Prerequisites

- Candidate's consent (template provided by us)
- Job profile and the key requirements

How it works

- 1 Buy online and name the candidate
- 2 Candidate receives the link and completes the assessment (approx. 60 min)
- 3 Evaluation by Mario Obi
- 4 Aptitude profile as PDF within two working days

Included

- Technical knowledge test, weighted for your industry
- Situational questionnaire with point scoring
- Two video answers to customer situations
- No psychological test: observable behaviour is rated with a uniform grid
- Report only to the client, deleted after 6 months

Deliverables

- Aptitude profile: invite / open / rather not
- Interview questions on the weak points

Not included and options

MC-BER-220	Assessment on site, 2 h	CHF 790.–
	Five candidates – package	on request

Buy online

Add the assessment to the cart, pay, name the candidate – the link goes directly to them.
