

Interim & project management – leadership for a defined pe

When a leadership position in service is vacant, a restructuring is due or a project needs an experienced leader: I take over – operationally, with P&L responsibility, for a defined period.

DURATION
Typically 3–12 months

LOCATION
At the customer · 40–100 % workload

PRICE
Daily rate on request

BILLING
Depending on duration · monthly

Typical situations

Vacancy in service management or customer service at executive level · reorganisation or turnaround · introduction of a new service model or system · integration after an acquisition · a major customer project that needs a leader.

Who it's for

CEOs and boards of directors at machine and plant builders and technical B2B companies.

Your benefit

- Available at short notice, no lengthy induction
- Executive-level experience with P&L and team responsibility
- Neutral view, clear decisions
- Orderly handover to the successor

Prerequisites

- Clear mandate with goals and authority
- Contact person on the executive board
- Access to systems, team and KPIs

How it works

- 1 Request or free initial call
- 2 Mandate clarification: goals, authority, workload, duration, KPIs
- 3 Proposal with daily rate depending on duration and workload
- 4 Start – usually within 2–4 weeks – with a 100-day plan
- 5 Regular reporting to the executive board
- 6 Handover to the successor

Included

- Operational leadership with agreed authority
- 100-day plan and target agreement
- Monthly reporting with KPIs
- Handover and onboarding of the successor

Deliverables

- 100-day plan
- Monthly report with KPIs and measures
- Handover documentation

Not included and options

MC-INT-030	Monthly flat rate with fixed workload	by quote
MC-BER-190	Module team & leadership – e.g. building up the successor	CHF 5'900.–
MC-ZUS-010	Expenses outside Switzerland	at cost

Request a mandate

Briefly describe situation, period and workload – you receive a meeting proposal and a quote within two working days.
